

Moncho.ai Enterprise Pricing Guide

How we scope and quote custom programs - not a fixed price list

What Enterprise is

Enterprise is for organizations that need custom market intelligence programs beyond self-serve Pro credit packs.

Two tracks

- Enterprise Range: scoped program for defined sector/country scope.
- Enterprise Custom: multi-country / contract with analyst days and SLA.

What drives price

Sectors/countries, Sherpa volume, analyst days, custom data, SLA tier.

Indicative pricing

Quoted per engagement after discovery. No fixed Enterprise list prices during beta.

Self-serve checkout: Pro packs only (\$10 / \$25 one-time).

How to buy

Talk to Sales on moncho.ai/pricing or email policy@moncho.ai.

Enterprise invoiced offline - not Paddle self-serve checkout at launch.
